## **MSN III**

**April, 18 – 21, 2016  
Tula, Russia**

The first informational announcement

III International conference "Simulation of structures, structure of matter, nanotechnologies" (MSN III) is a traditional conference held in Tula since 2011.

#### Date of the conference

**April 18 – 21, 2016**

Tula State Lev Tolstoy Pedagogical University,  
Tula

#### Purpose of the conference

Discussion and publication of the results of research aimed at solving urgent and fundamental scientific problems, by leading scientists in various areas of Mathematics and Natural Science: issues of structural simulation, structure of matter, physical processes and application of modern methods of theoretical and experimental study of materials at different scale levels, including nanomaterials. Discussion of current problems and establishment of creative links between scientists from various countries, more effective use of scientific potential of universities, research organizations and enterprises in solving priority research tasks of Russian and foreign science.

#### Topics of the conference

1. Simulation of structures
2. Nano-scale heterosystems
3. Nanomaterial properties
4. Systems with special physicochemical properties

5. Simulation in Physics
6. Simulation in Biology
7. Information Computation Systems
8. Trends in Natural Science study development

At the conference there will be presented plenary papers (30 minutes), oral reports (20 minutes) as well as poster reports.

#### Proceedings publication

Reports of the participants of the conference marked by the program committee will be published in the journal "Chebyshevskii sbornik" which is included in the list of scientific journals and publications recommended by Higher Attestation Commission (VAK).

If the claimed work is carried out in the framework of a grant or program, we ask you to provide us the formulation of scientific problem being solved in the submitted work in addition to the text of the report itself.
